Dear John Baumgartner:

Our negotiations for highway right of way across your property have progressed to the point that you have indicated a willingness to sign a deed in return for payment as agreed to in our previous discussions. It is thought to be in the best interests of both you and the Texas Department of Transportation to confirm this agreement in order to avoid any possible misunderstanding as to the details of the purchase or the process by which the Department will make payment.

Your property consists of a 0.0733-acre (3,192 square feet) parcel of land, located in the James F. Perry and Emily M. Austin Survey, Abstract Number 19, Galveston County, Texas, located at the northwest line of FM646, south of Brookport Drive (2102 1/2 W. FM 646), League City, Galveston County, Texas. The right of way being purchased by the Texas Department of Transportation has been thoroughly explained. The payment of the amount of \$12,768.00 as herein agreed to will constitute full payment to be made by the Texas Department of Transportation for the property to be conveyed to the State. The State and Owner(s) have agreed to the following provisions.

Until payment is made by the State, title and possession of the property to be conveyed remain with you. You shall bear all risk of loss to any and all such property prior to such payment. Either you or the State shall have the right to terminate this agreement.

After the date of payment of the purchase price, you will be reimbursed for any fair and reasonable incidental expenses necessarily incurred in transferring title to the property for use by the Texas Department of Transportation. Expenses eligible for reimbursement may include (1) recording fees, transfer taxes and similar expenses incidental to conveying the real property to the Department and (2) penalty costs for prepayment of any preexisting recorded mortgage entered into in good faith encumbering the real property. Voluntary unnecessary expenses or expenses incurred in clearing questionable title will not be eligible for reimbursement. Eligible incidental expenses will be reimbursed upon submission of a claim supported by receipted bills or other evidence of actual expenses incurred. You may file a written request for review if you believe that the Department failed to properly determine the eligibility for or the amount of incidental expenses to be reimbursed. There is no standard form on which to request a review of a claim; however, the claim must be filed with this office within six months after you are notified of the Department's determination on any claim for reimbursement.

The payment of the amount herein stated and the terms provided constitute the only promises, consideration and conditions of this purchase; and, no other promises, consideration or conditions have been signified or implied, save and except any benefits which may accrue to you under the State's Relocation Assistance Program and the mutual benefits to be derived by you and the Texas Department of Transportation from the signing of this agreement.

The State, without cost to you as the owner, will pay the cost of recording all instruments conveying title to the State.

It is suggested that you carefully review the proposed deed and satisfy yourself (-selves) as to its (their) provisions. With your signing of this agreement and execution of the deed, the State will proceed with the issuance of a State warrant, which will be made out jointly to you and to Charter Title Company, agent for Texas Department of Transportation.

This company has been designated as the State's closing agent and is responsible to see that the Texas Department of Transportation obtains clear title. They will not endorse the warrant and make payment until clear title is secured. At the same time, you have the right not to endorse the warrant and accept payment until you are fully satisfied on all details of the transaction.

City Infrastructure Preservation and Relocation

The State acknowledges the existence of city-owned infrastructure located on, within, or serving the Property, consisting of a lift station and related facilities ("City Infrastructure").

The State agrees that its acquisition, design, or construction activities shall not impair the functionality or service continuity of the City Infrastructure. If any such City Infrastructure is impacted, the State shall provide for necessary adjustment, relocation, or reconstruction in coordination with the City and in compliance with applicable City standards.

The parties shall enter into a **Standard Utility Agreement ("SUA")** consistent with 43 TAC § 21.37(g) and Transportation Code § 203.092 to determine cost responsibility and reimbursement eligibility. To the extent any relocation qualifies under § 203.092, the State shall not dispute such eligibility absent material changes in fact or scope.

The State shall execute the **SUA** within ninety (90) days of identifying impacted eligible infrastructure or before related construction begins, whichever is earlier, and shall not unreasonably delay or withhold execution. The State shall also cooperate with the City in verifying compensable property interests, where applicable.

The parties acknowledge that City Infrastructure supports essential public services and agree that timely relocation is critical to maintaining those services and project delivery.

The parties expressly agree that the obligations set forth in this agreement shall survive the expiration, termination, or satisfaction of this Agreement and shall continue in full force and effect following the conveyance of title to the State, whether by deed, settlement, or condemnation judgment.

Sincerely,

Right of Way Project Delivery Manager,
Texas Department of Transportation
