To whom it may concern:

Re: Clear Wireless site HOU0586, CNP tower 09309, League City

Sirs,

Be advised that CenterPoint Energy (CNP) is performing the actual construction of all Clear Wireless sites on CNP property, therefore CNP has evaluated and approved this collocation site.

Further, CNP does not add landscaping to its rights-of-ways due to the industrial nature of the ROW use, and the inherent need for clear access to facilities for inspections, operations, and storm restoration activities. Normal construction at/near our towers would destroy landscaping and any irrigation. Our vegetation management is subject to NERC standards and the NESC.

If you have any questions, please do not hesitate to contact me at 713.207.6386.

Best regards,
