City of League City Request for Proposal #25-010 Vending Machine Services

I. Introduction

The City of League City is soliciting proposals from interested and qualified vendors to provide Vending Machine Services. It is the City's intention to make a single award to satisfy all services listed in the Scope of Work but the City does reserve the right to make multiple awards to satisfy all services outlined in this RFP. The City intends to enter a three-year agreement with the option for two one-year renewals.

A. Clarification and Interpretation of RFP

- 1. The words "must" or "will" or "shall" in this RFP indicate mandatory requirements. Taking exception to any mandatory requirement will be grounds for rejection of the proposal.
- 2. The City desires to avoid any misunderstanding where it is assumed that a feature is included in the proposal and turns out to be an optional, extra cost feature. As such, any question answered with an indication of compliance will be considered included at no additional cost. Any service that is referred to in the body of this response (does not pertain to attachments and brochures) will be considered included in the basic offer.

B. Purpose

The purpose of this RFP is to provide minimum requirements, solicit proposals, and gain adequate information from which the City may evaluate the proposer's products and services as they compare to the other providers and as they pertain to the needs of the organization.

C. Confidential or Proprietary Information

Throughout the process of evaluating proposals and negotiating a contract, all information contained in proposals shall be kept confidential. Upon Council award of contract or rejection of all proposals, contracting information, as defined by Texas Government Code 552 and in this document, shall be open for public inspection. This includes successful and unsuccessful proposals. Exceptions may be made if releasing the information would harm City interests by providing an advantage to a competitor or bidder in a future competitive situation, or if information requested contains trade secrets, or proprietary information.

Any information that the potential vendor or Proposer believes may be considered proprietary, confidential or a trade secret should be stamped with the term CONFIDENTIAL on that part of the proposal. All proposals and parts of proposals which are not marked as confidential will be automatically considered public information after the contract is awarded. If the vendor, contractor, potential vendor, or potential Proposer wishes to claim that information is proprietary, they must demonstrate based on specific factual evidence that disclosing the information would reveal an individual approach to work, organizational structure, staffing, internal operations, processes, or discounts, pricing methodology, cost data or other pricing information that will be used in future solicitation or bid documents; or give advantage to a competitor.

In the event that information contained in those sections marked confidential are included in an Open Records Request, the City will decline to release the information for the purpose of requesting an attorney general decision. The City will make a good faith effort to contact the vendor, so they may submit in writing to the attorney general the reasons why the information should be withheld or released. If the vendor cannot be contacted, the information may be released without further review. The process to be followed upon receipt of the request for information that potentially contains trade secrets, or proprietary or confidential information will be as follows:

- City will make a good faith effort to notify the vendor in writing that the information has been requested within a reasonable time, but no more than ten (10) business days after receiving the request. This will include a copy of the written request for information, and a statement that the vendor is entitled to submit to the attorney general with ten (10) business days the reason(s) with the information should be withheld and a letter, memorandum, or brief in support of that reason.
- 2. The vendor who submits a letter, memorandum, or brief to the attorney general shall send a copy to the person who requested the information from the governmental body. If the letter, memorandum or brief contacts the substance of the information requested, the copy sent may be a redacted copy.
- 3. The attorney general shall promptly render a decision when requested, consistent with the standards of due process, determining whether the requested information requested contains trade secrets, or confidential or propriety information as defined in Texas Government code 552. The decision shall be rendered no later than the 45th business day after the date the attorney general received the request for a decision.

<u>Contracting Information</u> – information in a voucher or contract relating to the receipt of expenditure of public funds; solicitations or bid documents; communications sent between the City and a vendor, contractor, potential vendor or potential Proposer during solicitation, evaluation, or negotiation of a contract; documents, including bid tabulations, showing the criteria by which a government body evaluates each vendor; and communications and other information sent between City and a vendor or Proposer related to the performance of a final contract with City or work performed on behalf of City.

<u>Trade Secrets</u> – all forms and types if information including business, scientific, technical, economic, or engineering information and any formula, design, prototype, pattern, plan, compilation, program device, program, code, device, method, technique process, procedure, financial date, or list of actual or potential customers or suppliers, whether tangible or intangible and whether or however stored, compiled, or memorialized physically, electronically, graphically, photographically, or in writing if the owner of the trade secret has taken reasonable measures under the circumstances to the information secret and the information derives independent economic value, actual or potential, from not being generally known to and not being readily ascertainable through proper means by, another person who can obtain economic value from the disclosure of the information.
