

VIN 2B3LA43T09H586586

Unit 124

The lifters were making a knocking/tapping sound within the engine. Upon receiving authorization to replace the camshaft and lifters we tore the engine down and removed the camshaft. After removing the camshaft we noticed the camshaft bearing on the engine block itself has severe scoring on it. If we replace just the camshaft and lifters the engine may fail prematurely due to the bearing scoring. This bearing is part of the block assembly and cannot be replaced. The only option in this case is to replace the engine.

The warranty on the engine is 3 years or 100,000 miles, whichever comes first.

PART NAME	PART NUMBER	PRICE	QTY	TOTAL
ENGINE LONG BLOCK	68276264AA	\$5200.00	1	\$5200.00
OIL FILTER	4884899AC	\$6.68	1	\$6.68
OIL	4761872PB	\$3.10	7	\$21.70
COOLANT	68048953AB	\$18.56	1	\$18.56
SPARK PLUGS	SPLZFR5C11	\$4.56	16	\$72.96
LABOR		\$90.00	22.0	\$1980.00
TOTAL PARTS AND LABOR				<u>\$7299.90</u>
