Subject: Re Fairway Pointe resolution

These are the motions concerning agenda item 7 and the resolution points as stated by Vaness Hamilton:

- Sebastian made a motion to take action on a resolution to recommend that City Council move forward with the Fairway Pointe portion of the trail. Garett seconded the motion. All in favor, motion carried.
 - Sandra made a motion to accept the language as presented by Vaness to be included in the resolution to be prepared. Motion was seconded by Sebastian. All in favor, motion carried unanimously.
- 1) Whereas the Parks Trails, and Open Space Master Plan sets forth the benefits of trails and specifics, from the citizen survey the number one priority project is off-street paths
 - 2) Whereas homeowners seek out property adjacent to trails
 - 3) Whereas this connecting segment provides safety of an off-road way
 - 4) Whereas future level of park services also in the Parks, Trails, and Open Space Master Plan is target number 4, to approve connectivity to construct multi-user trails that connect major parks, specific buildings, schools, and residential areas
 - 5) Whereas this path provides the open space along the canal bounded by utility easement and beyond to golf course green space
 - 6) Whereas many users of the trail will likely be residents of the larger communities of South Shore Harbor and its children walking to school, this trail will bring neighbors together. Also in target number four, utilizing public/private utility easements and drainage-ways as off-road trail orders
