## PROJECT DESCRIPTION

(PK1803) 2019 The 5K Loop trail will be maintained by the City and consist of a 10' wide decomposed granite trail which will run off road but within the confines of Hometown Heroes Park. This project is in the 2017 Parks Trails and Open Space Master Plan. Construction for the 5K loop is anticipated to begin in FY2020.

(PK1803B) FY2020 Design and construct an Obstacle Course / Fitness Course at Hometown Heroes Park in association with and connected to the planned 5K Loop Trail. This project would include a premanufactured system useable by youth and adults to increase mobility, agility and strength. The project was requested by a group of residents with special interests in running, outdoor exercise and health improvement. Project has been presented to the 4B Board and will be voted on for inclusion in the FY2020 4B Budget in early August 2019. This type of project was listed in the 2017 Parks Trails & Open Space Master Plan.

## PROJECT JUSTIFICATION

Construction will provide a safer route for those who train for 5K running events. It will provide the only decomposed granite loop trail in the City. It will also allow the City an alternative route to host 5K runs instead of closing streets all around town. Races can be held at Hometown Heroes Park without having to close down numerous streets all around town for a race.
