SYSTEM CONFIGURATION DETAILS

The following sections detail the configuration of the Axon Fleet In-Car System

Vehicle Hardware

Vehicle Hardware	2	Axon Fleet Cameras will be installed in each vehicle
	2	Axon Fleet Battery Boxes will be installed in each vehicle
	1	Axon Signal Units will be installed in each vehicle
	1	Cradlepoint IBR900 Series router will be installed in each vehicle
Axon Battery Boxes	The battery box provides power to its connected camera for up to 4 hours allowing for video offload while the vehicle ignition state is OFF and the MDT is connected and available.	
Signal Activation Methods	When triggered, the Axon Signal Vehicle (ASV) device will activate the recording mechanism for all configured Axon cameras within 30 feet of the vehicle.	
Mobile Data Terminal	Each vehicle will be equipped with a Mobile Data Terminal provided by the customer.	
Mobile Data Terminal Requirements	<p>Operating System: Windows 7 or Windows 10 - x32 or x64 with the most current service packs and updates</p> <p>Hard Drive: Must have 25GB+ of free disk space</p> <p>RAM/Memory: Windows 7 - 4GB or greater Windows 10 - 8GB or greater</p> <p>Ethernet Port: The system requires the MDT to have one dedicated and available Ethernet port reserved for an Ethernet cable from router. The Ethernet port can be located on an electronic and stationary mobile docking station. If a docking station is used, it is the preferred location for the Ethernet port.</p> <p>Wi-Fi Card: The system requires an 802.11n compatible Wi-Fi card using 5Ghz band.</p> <p>USB Ports: If the computer is assigned to the officer and does not remain with the vehicle, then the number dongles ordered should equal the number of officers or the number of computers assigned. At least one dedicated and available USB 2.0 port for the Fleet USB dongle USB Port on MDT or Dock.</p>	

Additional Considerations	If the customer has a MiFi hotspot, embedded cellular, or USB 4G, then the customer must purchase a Cradlepoint router with an external antenna and Cradlecare. For agencies that use NetMotion Mobility, Axon traffic must be passed through; such that it does not use the Mobility VPN tunnel. Customer must provide IT and / or Admin resources at time of installation to ensure data routing if functional for Axon Fleet operation.	
	In the event an Agency is unable to support the IT requirements associated with the installation, Axon reserves the right to charge the Agency for additional time associated with on-site work completed by an Axon Employee.	
Hardware Provisioning	Axon will provide the following router for all vehicles:	Cradlepoint IBR900 Series
	The customer will provide a MDT for each vehicle	

In-Car Network Considerations

Network Requirements	Cradlepoint IBR900 Series will create a dedicated 5Ghz WiFi network within each vehicle. This network will join the Axon Fleet cameras and Mobile Data Terminal together.			
Network Addressing	IP Addressing		Total IPs Required	
	Axon Fleet Cameras	150	300	
	Mobile Data Terminal	75		
	Cradlepoint IBR900 Series	75		
Hardware Provisioning	Customer to provide all IP addressing and applicable network information			

Network Consideration Agreement

Network Consideration Agreement	Customer acknowledges the minimum requirements for the network to support this Statement of Work.
	All Axon employees performing services under this SOW are CJIS certified.
	If the network provided by Customer does not meet the minimum requirements, or in the event of a requested change in scope of the project, a Change Order will be required and additional fees may apply. Additional fees would also apply if Axon is required to extend the installation time for reasons caused by the customer or the customer network accessibility.

Professional Services & Training

Project Management	Axon will assign a Project Manager that will provide the expertise to execute a successful Fleet camera deployment and implementation. The Project Manager will have knowledge and experience with all phases of the project management lifecycle and with all application modules being implemented. He/she will work closely with the customer's project manager and project team members and will be responsible for completing the tasks required to meet all contract deliverables.
Vehicle Installation	<p>Customer will be performing the installation of all Axon Fleet vehicle hardware. Installation services purchased from Axon include a "clip" and removal of existing in-car system hardware. This does not include "full removal" of existing wiring. A "full removal" of all existing hardware and wiring is subject to additional fees. Axon provides basic Fleet operation overview to the customer lead and/or Admin at the time of install.</p> <p>Clip vs Rip installation removal:</p> <ul style="list-style-type: none"> ○ It is necessary to differentiate between the type of equipment removal to be provided by Axon. Standard Fleet Installation includes hardware removal in a fashion considered "Clip" which means Axon cuts the wires from the old system without removing multiple panels, removing all wiring and parts from the old system. In the case Axon removes the hardware Axon is not responsible for the surplus of hardware or any devices that may have been physically integrated with the removed system. In some situations, radar systems are integrated with the in-car video system and have a cable that connects to the system, if Axon removes the old in car system then Axon is not responsible for the radar system as part of the removal. ○ A "Rip" removal should be contracted through ProLogic directly. The Rip would be similar to a complete and full removal, which is more common when they retire a vehicle from service.
Custom Trigger Installation	Axon Signal Units have multiple trigger configuration options. Any trigger configurations that include a door or magnetic door switch are considered "custom" and may be subject to additional fees. An Axon representative has discussed with the Agency the standard triggers of the Fleet System. Those standard triggers include light-bar activation, speed, crash and gun-locks. The light-bar must have a controller to allow Axon to interface for the desired position, gun-locks must be installed with existing hardware in the vehicle. Doors are considered "CUSTOM" since they required additional hardware and time for installation, typically requiring the door may need to be taken apart for the installation.
Training	<p>End-user go-live training provides individual device set up and configuration assistance, training on device use, Evidence.com and AXON View XL.</p> <p>End-user go-live training and support is not included in the installation fee scope.</p>

4G / Cellular Offload Considerations

Network Considerations	The Cradlepoint IBR900 Series will be the connection which allows 4G upload of recorded video
	The customer will ensure that their cellular contract does not allow for data throttling, or service denial, once a set data threshold is met. Throttling or denial of service will negatively affect Fleet upload capabilities.
	The MDT's 4G connection will facilitate the upload of recorded video content.
Hardware Provisioning	The customer will provide all 4G sim cards as required by their mobile provider.

ROOM DETAILS: Room 1 - CID

The following sections detail the configurations specific to ROOM 1 - CID

Location Name	Main
Room Name	Room 1 - CID

Camera Configuration

Camera 1	Camera 1 will be a(n) : AXIS F41/F1025 Covert IP Camera Covert Enclosure : Fire Strobe Enclosure Mic: Louroe Tamper Proof Mic
Recording Activation	Recording will be triggered via Touch Panel
External Recording-In-Progress Visual	N/A
Wall Configuration	Drywall with Soundproofing
Ceiling Configuration	Standard Tile

Additional Location Notes

Notes	Rooms pre-wired for POE connectivity.
-------	---------------------------------------

ROOM DETAILS: Room 1 - Jail

The following sections detail the configurations specific to ROOM 1 - JAIL

Location Name	Main
Room Name	Room 1 - Jail

Camera Configuration

Camera 1	Camera 1 will be a(n) : Axis P3235-LV Overt Dome Camera Mic: Louroe Tamper Proof Mic
Camera 2	Camera 2 will be a(n) : AXIS F41/F1025 Covert IP Camera Covert Enclosure : Fire Strobe Enclosure Mic: Louroe Tamper Proof Mic
Recording Activation	Recording will be triggered via Touch Panel
External Recording-In-Progress Visual	N/A
Wall Configuration	Drywall with Soundproofing
Ceiling Configuration	Standard Tile

Additional Location Notes

Notes	Rooms pre-wired for POE connectivity.
-------	---------------------------------------

ROOM DETAILS: Room 2 - CID

The following sections detail the configurations specific to ROOM 2 - CID

Location Name	Main
Room Name	Room 2 - CID

Camera Configuration

Camera 1	Camera 1 will be a(n) : AXIS F41/F1025 Covert IP Camera Covert Enclosure : Fire Strobe Enclosure Mic: Louroe Tamper Proof Mic
Recording Activation	Recording will be triggered via Touch Panel
External Recording-In-Progress Visual	N/A
Wall Configuration	Drywall with Soundproofing
Ceiling Configuration	Standard Tile

Additional Location Notes

Notes	Rooms pre-wired for POE connectivity.
-------	---------------------------------------

ROOM DETAILS: Room 2 - Jail

The following sections detail the configurations specific to ROOM 2 - JAIL

Location Name	Main
Room Name	Room 2 - Jail

Camera Configuration

Camera 1	Camera 1 will be a(n) : Axis P3235-LV Overt Dome Camera Mic: Louroe Tamper Proof Mic
Camera 2	Camera 2 will be a(n) : AXIS F41/F1025 Covert IP Camera Covert Enclosure : Fire Strobe Enclosure Mic: Louroe Tamper Proof Mic
Recording Activation	Recording will be triggered via Touch Panel
External Recording-In-Progress Visual	N/A
Wall Configuration	Drywall with Soundproofing
Ceiling Configuration	Standard Tile

Additional Location Notes

Notes	Rooms pre-wired for POE connectivity.
-------	---------------------------------------

ROOM DETAILS: Room 3 - CID

The following sections detail the configurations specific to ROOM 3 - CID

Location Name	Main
Room Name	Room 3 - CID

Camera Configuration

Camera 1	Camera 1 will be a(n) : AXIS F41/F1025 Covert IP Camera Covert Enclosure : Fire Strobe Enclosure Mic: Louroe Tamper Proof Mic
Recording Activation	Recording will be triggered via Touch Panel
External Recording-In-Progress Visual	N/A
Wall Configuration	Drywall with Soundproofing
Ceiling Configuration	Standard Tile

Additional Location Notes

Notes	Rooms pre-wired for POE connectivity.
-------	---------------------------------------

ROOM DETAILS: Room 4 - CID

The following sections detail the configurations specific to ROOM 4 - CID

Location Name	Main
Room Name	Room 4 - CID

Camera Configuration

Camera 1	Camera 1 will be a(n) : AXIS F41/F1025 Covert IP Camera Covert Enclosure : Fire Strobe Enclosure Mic: Louroe Tamper Proof Mic
Recording Activation	Recording will be triggered via Touch Panel
External Recording-In-Progress Visual	N/A
Wall Configuration	Drywall with Soundproofing
Ceiling Configuration	Standard Tile

Additional Location Notes

Notes	Rooms pre-wired for POE connectivity.
-------	---------------------------------------

ROOM DETAILS: Room 5 - CID

The following sections detail the configurations specific to ROOM 5 - CID

Location Name	Main
Room Name	Room 5 - CID

Camera Configuration

Camera 1	Camera 1 will be a(n) : AXIS F41/F1025 Covert IP Camera Covert Enclosure : Fire Strobe Enclosure Mic: Louroe Tamper Proof Mic
Recording Activation	Recording will be triggered via Touch Panel
External Recording-In-Progress Visual	N/A
Wall Configuration	Drywall with Soundproofing
Ceiling Configuration	Standard Tile

Additional Location Notes

Notes	Rooms pre-wired for POE connectivity.

Axon International, Inc's Sales Terms and Conditions for Direct Sales to End User Purchasers

This Statement of Work is bound to the applicable signed quote. Upon confirmation of the installation dates, to be confirmed in writing, the agency will give no less than a 2-week advanced notice of cancellation or change from the date of the scheduled installation. In the event the Agency cancels 2 weeks or less from the date of the scheduled installation, the agency will be responsible for all travel booked, and resource costs associated with the cancelled installation. Rescheduling of the installation will be at the discretion of Axon Professional Services based on available dates within the installation schedule calendar.

Changes to the scope of this SOW must be documented and agreed upon by the Parties in a change order. If the changes cause an increase or decrease in any charges or cause a scheduling change from that originally agreed upon, an equitable adjustment in the charges or schedule will be agreed upon by the Parties and included in the change order, signed by both Parties.

Notes

BuyBoard 568-18 used for pricing and purchasing justification.

Tax is subject to change at order processing with valid exemption.

Axon's Sales Terms and Conditions

This Quote is limited to and conditional upon your acceptance of the provisions set forth herein and Axon's Master Services and Purchasing Agreement (posted at www.axon.com/legal/sales-terms-and-conditions), as well as the attached Statement of Work (SOW) for Axon Fleet and/or Axon Interview Room purchase, if applicable. Any purchase order issued in response to this Quote is subject solely to the above referenced terms and conditions. By signing below, you represent that you are lawfully able to enter into contracts. If you are signing on behalf of an entity (including but not limited to the company, municipality, or government agency for whom you work), you represent to Axon that you have legal authority to bind that entity. If you do not have this authority, please do not sign this Quote.
