If there is a conflict between the terms of this Agreement and Exhibits A or B, the terms of this Agreement will prevail.
2. **Term and Termination:** This Agreement shall commence on **October 1, 2020** and shall expire on **August 12, 2021** City reserves the right to terminate this Agreement for convenience upon seven (7) days written notice to Professional. Upon such termination, City shall pay Professional, at the rate set out in Exhibit A, for services satisfactorily performed up through the date of termination. Notwithstanding any provision in this Agreement to the contrary, City will not be required to pay or reimburse Professional for any services performed or for expenses incurred by Professional after the date of the termination notice that could have been avoided or mitigated by Professional.
3. **Compensation:** Professional shall be paid for the services as set forth in Exhibit A. In no event shall the total compensation exceed **\$186,690.00** during the term of this Agreement. City shall tender payment (including progress/partial payments) for services only after such services are completed and are deemed to be acceptable under this Agreement, in the sole reasonable discretion of City. Professional must submit to City invoices for all services provided, which invoices must include details and dates of service. Payment by City shall be made within thirty (30) days of receipt of an invoice, except for any portion of the invoiced amount that City disapproves as not compliant under this Agreement, in the sole reasonable discretion of City. If City disapproves any amount submitted for payment by Professional, City shall give Professional specific reasons for disapproval in writing.
4. **Insurance:** Professional is required during the Contract Term to maintain insurance as set forth below:

5. **Liquidated Damages:** Professional acknowledges that time is of the essence in performing this Agreement. City and Professional (collectively, the "Parties") agree that if Professional is late in performing any service designated as Time Critical on the Scope of Services attached to this Agreement, City will suffer loss, damages, or other harm from Professional's delay. The Parties agree that the amount of loss, damages, or harm likely to be incurred as a result of Professional's delay is incapable or difficult to precisely estimate, and therefore the Parties desire to stipulate the amount of such loss, damages, or harm. Accordingly, Professional shall have deducted from any amounts owed under this Agreement liquidated damages equal to the number of calendar days of the delay(s) times the daily rate, which rate shall be one-tenth of one percent (0.1%) times the compensation shown in the Scope of Services for such Time Critical service. The Parties further agree that: (i) the liquidated damages specified herein are not a penalty but rather bear a reasonable relationship to, and is not plainly or grossly disproportionate to, the probable loss likely to be incurred by City as a result of Professional's delay; (ii) one of the reasons for City and Professional to agree to such amounts is the uncertainty and cost of litigation regarding the question of actual damages; and (iii) City and Professional are sophisticated business parties and negotiated this Agreement at arm's length.
6. **Independent Professional:** Professional is an independent Professional and is not an employee, partner, joint venture, or agent of City. Professional understands and agrees that he/she will not be entitled to any benefits generally available to City employees. Professional shall be responsible for all expenses necessary to carry out the services under this Agreement and shall not be reimbursed by City for such expenses except as otherwise provided in this Agreement.

Ownership of the Work shall belong to and remain the exclusive property of City. The Work may be edited at any time within City's discretion. If the Work would not be considered a work-for-hire under applicable law, Professional hereby assigns, transfers, and conveys any and all rights, title and interest to City, including without limitation all copyrights, patents, rights of reproduction, rights to ownership, and right to secure registrations, renewals, reissues and extensions thereof. As the sole copyright holder of the Work, City maintains and asserts the rights to use, reproduce, make derivative works from, and/or edit the Work in any form of medium, expression or technology now known or hereafter developed, at any time within City's discretion. Professional shall not sell, disclose or obtain any other compensation for the services provided herein or the Work. If the Work is one to which the provisions of 17 U.S.C. § 106A apply, Professional hereby waives and appoints City to assert on Professional's behalf Professional's moral rights or any equivalent rights regarding the form or extent of any alteration to the Work (including, without limitation, removal or destruction) or the making of any derivative works based on the Work, including, without limitation, photographs, drawings or other visual reproductions of the work, in any medium, for City's purposes.
8. **Confidentiality:** During the course of the services to be provided under this Agreement, Professional may become privy to confidential information of City. Professional agrees to treat as confidential the information or knowledge that becomes known to Professional during performance of this Agreement and to not use, copy, or disclose such information to any third party unless authorized in writing by City. This provision does not restrict the disclosure of any information that is required to be disclosed under applicable law. Professional shall promptly notify City of any misuse or unauthorized disclosure of City's confidential information and upon expiration of this Agreement shall return to City all confidential information in Professional's possession or control. The Director of Finance of City shall examine Professional's claim and any counterclaim and negotiate with Professional in an effort to resolve such claims. This provision shall not be construed as a waiver by City of its right to seek redress in the courts.

if such invalid, illegal or unenforceable provisions had never been contained in it. To this end, the provisions of this Agreement are declared to be severable. The Parties may mutually agree to renegotiate the Agreement to cure such illegality/invalidity or unconstitutionality if such may be reasonably accomplished.

### **GENERAL OVERVIEW & SCOPE OF SERVICES**

#### **General Overview**

This proposal is based on our understanding of the project as discussed in our previous meetings and conversations. This proposal consists of providing engineering design and construction phase services associated with the replacement of the existing 10-inch diameter water line along the north side of FM 518, from Hobbs Road (just west of Interstate 45) to east of Landing Ditch, with a new 12-inch diameter water line. On the east end of the project, the new water line is planned to connect to an existing 12-inch PVC water line that was installed as part of the IH45 highway improvements (tie-in point at Hartz Chicken). On the west side of the project, the new water lined is planned to connect to an existing 12-inch PVC water line that was installed recently as part of the Landing Ditch Drainage Improvement project. The total footage of water line to be replaced is estimated to be approximately 2,830 linear feet of existing 10-inch water mains with new 12-inch water mains, plus 560 linear feet of branching 6" and 8" water lines, including encased main water line crossings of FM 518. The project includes a drainage channel crossing that is anticipated to be traversed using horizontal directional drilling. Based on preliminary cost estimates performed by ARKK, the estimated construction cost for the water line replacement is \$1,320,500 (includes a 20% contingency). The proposed water line is anticipated to be installed parallel to the alignment of the existing water line. At this time, no additional easements are anticipated to be required for this project. However, a budget for easement document preparation is included in this proposal, to be used only if determined to be necessary to complete the project.

This proposal addresses the engineering services ARKK Engineers will provide the City during the design and construction phases, including such services as topographic surveying, geotechnical engineering, plan reproduction, and services that are required to complete the project. During the construction phase of this project, the City of League City will provide a project site representative to observe the progress of construction. Therefore, construction inspection services by ARKK Engineers' personnel are not included in the engineering scope of services for the project. However, a budget for increased engineering project support to assist and aid the City's project site representative during construction is included in this proposal. This proposal does not include performing any environmental studies for the project area. Construction materials testing services are also not included, as we understand that the City will contract separately with a material testing firm during construction.

RE: **League City, Texas (Waterline Replacement)**

Dear David:

Ally General Solutions, LLC (AGS), would like to thank Arkk Engineers for the opportunity to work and partner on this project. In accordance with your request, AGS submits this proposal to ARKK Engineers for Professional Surveying Services for the League City Waterline Replacement survey will comprise of the following:

**I: Streets Topographic Linear (include cross street):**

Street Name:	Length along Street (LF):	Length along cross street (LF):	
FM 518	3350	0	
Hobbs Road		200	
Lagayette Lane		200	
Royal Dr		200	
Burgandy Lane		400	
Newport Blvd		200	
Williamsport St		200	
Ellis Landing		200	
Parker Court		200	
Total	3350	1800	

According to the requirements, the scope for survey will be including the following tasks:

1. Horizontal and vertical controls will be established and tied to the League City, Texas Benchmark System.
  - Horizontal Datum: Texas State Plane Coordinate System, South Central Zone NAD 83 (CORS96)EPOCH 2002.000)
  - Vertical Datum: NAVD 88, 2002
2. All planimetric features will be surveyed within FM 518 and intersecting road right-of-ways as listed above and per the exhibit provided.
3. All visible existing utilities (i.e. manholes, culverts, power poles, etc.) will be located and pipe size and flow line measure downs in the manholes and inlets (that can be opened) will be obtained. Will coordinate with League City public works to assist with manholes that we are not able to open as well as opening the water valves for measure down.
4. Texas one-call system (811) will be notified, and pipeline companies will be contacted to probe and mark their pipeline locations to be tied to the survey.
5. Attempt will be made to recover and verify sufficient monumentation along the existing roadway to establish estimated right-of-way lines for topographic surveying scope.
