Re: **Letter of Recommendation for Glen Cove 14" Force Main Replacement on FM 2094 Project (WW 1801C)**  
**Bid No. ITB 20-CIP-023**  
ARKK Job No. 19-021

Dear Mr. Talluto:

On September 23, 2020, the City of League City received nine (9) bids for the above referenced project. The project includes the replacement of approximately 3,500 L.F. of an existing 14-inch diameter sanitary sewer force main serving the Glen Cove subdivision. The replacement limits are along FM 2094 (TxDOT Right-of-Way) from a point approximately 350 feet west of Cypress Bay Blvd to the receiving sanitary sewer manhole at South Shore Blvd. Attached is the bid tabulation prepared by ARKK Engineers, LLC. Our review of the bid tabulation confirms that **Underground Construction Solutions, LLC** is the low bidder after considering the number of calendar days in the A+B bidding formula.

The bids were checked for mathematical errors and/or bid irregularities. A copy of the bid tabulation is attached. Please note that our evaluation of the bids does not include an evaluation of the other bid documents (insurance, financial statements, bid bonds, etc.).

The low bidder, Underground Construction Solutions, LLC, provided a list of qualifications and references for this project. ARKK Engineers contacted some of the references provided for similar projects that are completed or currently on-going. They are currently finishing up a 12" water line project along Sam Houston Avenue (TxDOT Right-of-Way) for the City of Huntsville. The feedback received from the references was positive, and they all indicated they would work with Underground Construction Solutions again in the future. Overall, the contacted references provided positive responses regarding Underground Construction Solutions' personnel, job performance, and their ability to successfully complete projects on time.

The difference between the low bid and the second bid is about \$175,000. ARKK Engineers and City staff met with the owner of Underground Construction Solutions to discuss the project and the City's expectations. Underground Construction Solutions indicated they have the personnel and experience to successfully complete the work on time. Due to the competitive bidding market in the area, timing of the bid, and availability of manpower and personnel, Underground Construction Solutions was able to lower their bid unit prices and provide a very competitive bid to the City. They also indicated that they stand by their bid and are excited to work for the City of League City.

Underground Construction Solutions, LLC appears to be a responsible firm that is capable of performing the specified work in a satisfactory manner. For these reasons, we recommend that the City of League City award the **Glen Cove 14" Force Main Replacement Project (WW 1801C)** to **Underground Construction Solutions, LLC** for a total of **\$652,595.00**.

If you have any questions, please contact me.

Sincerely,

ARKK ENGINEERS, LLC

Madhu Kilambi, P.E.

Senior Project Manager/Principal
