Project Summary:

The rezoning request consists of one parcel with the address of 386 South Egret Bay Boulevard (FM 270). The applicant is proposing to rezone the subject property to General Commercial to allow for the construction of a 20,000 square-foot gym and coaching facility, that will eventually be expanded to 60,000 square feet. The remainder of the lot will be subdivided and sold as commercial property.

The Future Land Use Plan, adopted by City Council in September 2017, identifies the properties as Auto Dominant Residential (see attached Future Land Use Plan). The Auto Dominant Residential designation is characterized by clusters subdivision with single family homes on smaller lots and commercial retail and office space along the traffic routes. Although the plan depicts this property as Enhanced Auto Dominant Residential,

the Plan also specifies that commercial development should be located along busy arterial roads and highway corridors. Rezoning the property to General Commercial would meet these specific criteria.

On October 15, 2018, the Planning and Zoning Commission held a public hearing and recommended approval of the rezoning request by a vote of 8-0-0. The Planning Department did not receive any letters of opposition or support from surrounding property owners.
