Total Cost			\$ 266,580.50	Total Cost	\$ 213,185.00	

**On the bid submitted, there is a calculation error on the hard copy for line item 2. The vendor wrote in 1.5 unit price for an extended cost of \$4000, but 1.50*2000 should equal an extended cost of \$3000. That changes the final total cost to \$213,185 instead of the \$214,685 noted on the hardcopy. The vendor was notified and confirmed this error and correction.
