Chief Jeff Allen
League City Fire Department
555 West Walker
League City, TX 77573

Chief Allen,

During the recent 89th Legislative Session, League City Volunteer Fire Department was appropriated \$250,000 by the Texas Legislature. The appropriation is included in Article III, pg. 528, of the [S.B. 1 - General Appropriations Act](#) as signed by Governor Greg Abbott on June 22, 2025. The funding is to be used in support of the department.

The Texas A&M Forest Service has been selected as the agency responsible for administering the funding and reimbursing the fire department for purchases made against it. This funding will be available beginning September 1, 2025, through August 31, 2026. The department will have the flexibility to determine what best meets its needs when utilizing the appropriation. Upon submission of purchase documentation to the agency, our team will ensure that reimbursement is processed promptly. The department may choose to submit purchase documentation at one time for a single reimbursement or throughout the year as purchases are made.

We look forward to providing the support needed and making this process seamless for you and the fire department. Thank you for your efforts to serve your community and the citizens of Texas!

Sincerely,

A handwritten signature in black ink that reads "Merrie Noak". The signature is written in a cursive, flowing style.
