(Ord. No. 2010-13, § 2(Exh. A), 5-11-2010)

Sec. 118-56. Towing Fee Study.

- (a). A “towing fee study” is a study to determine the fair market value of a nonconsent tow originating in the city. A towing company may request that the city conduct a tow fee study in accordance with Texas Occupations Code § 2308.203 by filing a written request with the chief of police, or his designee. The written request is to be delivered in the same manner as the permit application.
- (b). The following shall apply to towing fee studies performed at the request of a towing company:
- (1). A study fee in the amount of \$2,500.00 shall be required for each initial request submitted to the city for a towing fee study. A cashier’s check or certified check, payable to the city for such amount shall accompany the request and no portion of the fee shall be refundable, regardless of the final action by city council or the city. Except as provided in (b)(4) of this section.
 - (2). The study fee of \$2,500.00 shall be a minimum fee only. In the event the towing fee study cost exceeds \$2,500.00 or city council finds that the administrative overhead to the city for conducting such study exceeds the \$2,500.00; the city shall have the right to require an additional fee to cover the costs incurred by the study. The additional fee will be due 10 business days after an additional cost invoice has been hand delivered or delivered by certified mail, return receipt requested to the requesting tow company’s address listed on the latest permit. Failure to pay any additional fee(s) may result in cancellation or delay of the towing fee study, at the sole discretion of the city.
 - (3). The city shall conduct a towing fee study if the initial requestor is on the Nonconsent tow list and accounts for 30 percent or more of the Nonconsent tows performed in the city during the preceding twelve-month period, as determined by the police chief or his designee.
 - (4). If it is determined that the initial requestor does not meet the threshold established in subsection (b)(3), a towing fee study shall not be conducted and the city shall refund the fee, less an administrative fee of \$250.00.
 - (5). Within 10 business days after the filing of an initial request, additional towing companies may join the request by filing written requests in accordance with this section. The additional towing companies must be in current and good standing on the city’s Nonconsent tow rotation list to join the initial request and will be subject to the obligations and responsibilities provided below in subsection (b)(6).
 - (6). Each towing company requesting the towing fee study shall cooperate with the city to conduct the study. Each towing company shall provide to the city any information determined to be reasonably necessary to determine the fair market value of towing services regulated under this chapter. This information includes but is not limited to, financial records as they relate to vehicle insurance, registrations and operating costs. Failure of an additional requesting tow company to cooperate with the city, as determined by city staff, will result in the removal of the additional request and shall not affect the initial request.
 - (7). The study shall be conducted by the Budget and Finance Planning Department of the city, or department designated by the City Manager. The department shall obtain current fuel prices and towing fees from other cities of similar population. The methodology used to conduct the study will be established, at the sole discretion, of the city. The study shall determine the fair market value of a Nonconsent tow originating in the city by considering the information provided by subsection (b)(6), (b)(7), and any other information the department deems relevant.
 - (8). The city shall complete the towing fee study not later than the 120th calendar day after receiving the initial request, study fee, additional fees if applicable, and information required under this section. If information under subsection (b)(6) is not supplied to the city within 60 calendar days

from the initial request, or the city's request for additional information, the city in its sole discretion may decline to complete the study.

- (9). The City Manager, or his designee, shall present to city council the results of the towing fee study.
- (10). The chief of police or his designee, is to provide written notice to the requesting tow company, or companies, of the time, date, and location of the city council meeting at which the study is to be considered. The notice is to be sent by United States regular mail to the towing company's address listed in the latest permit application or email address listed on the latest permit application. However, failure to provide notice will not invalidate any decision of city council so long as the city council agenda is posted in compliance with the Texas Open Meetings Act.
- (11). Based on the results of the towing fee study, the city council may change by resolution the Nonconsent towing fees. The maximum fee(s) must represent the fair market value of the services provided by a towing company performing Nonconsent tows originating in the city.
- (12). The city is not required to conduct more than one towing fee study within a two (2) year period, measured from the date city council considered a towing fee study or increased Nonconsent towing fees, whichever is later.
- (13). Nothing in this section shall preclude the city from undertaking a towing fee study, at its own discretion, at any time.
