Explanation or comments related to City Manager's decision.			

The Rural VFD Insurance Program reimburses eligible fire departments for firefighter insurance. Enrollment in the program is open from **November 1st - July 31st** each fiscal year.

Reimbursement Rate:

The program will reimburse 100% of the actual cost of eligible insurance coverage, up to a maximum of **\$220** per fire department member covered.

Types of Eligible Insurance:

- *Worker's Compensation:* Provides medical expenses, lost wages, and rehabilitation costs to employees who are injured or become ill in the course and scope of their job. Also pays death benefits to families of employees who are killed on the job.
- *Accidental Death and Dismemberment:* Pays out if you die or get seriously injured in an accident, such as a car crash.
- *Group Term Life:* Provides a base amount of group coverage provided to employees by their employer. It covers employees for however long (the "term") they work for the employer, as long as the employer maintains the policy. In the event of the individual/employee's death, a death benefit is paid out to the individual's beneficiary.
 - Note: Group term life is different than whole/permanent life insurance. Unlike term life, permanent life insurance policies do not expire and tend to combine a death benefit with a savings portion. Permanent life insurance policies offer the ability to withdraw money at a certain point, whereas term life insurance does not offer this ability. Because of this, whole/permanent life insurance is **not eligible**.
- *Accident and Sickness:* Helps pay for expenses relating to accidental injuries (such as burns, breaking a leg, stroke) or critical illnesses.
- *Cancer:* Helps pay for both medical and non-medical costs like co-pays, deductibles, lengthy hospital stays, diagnostic tests, treatments and procedures, childcare, travel and lodging expenses, lost income, and more.
