Subject: RE: 24" water main cut & plug at detention pond

Gentlemen,

Please move forward on an emergency basis, based on the following factors: 1) potential loss of fire and domestic water service for the assisted living center, 2) potential private property damage (east and west bulk heads of the MUD detention pond, and 3) the need for proven specialized construction skills to perform the repair.

Thank you,

Jody Hooks
Director
Public Works

Wagner's quote for the 24" cut and plug.

Please let me know how you would like us to proceed. The leak is holding steady for the time being, but it is leaking pretty bad. As you are aware, if this blows out the assisted living complex will lose all fire protection.
